BELTZ HOME SERVICES CO. SCORES HIGH IN EMPLOYEE ENGAGEMENT

SAINT PAUL, Minn.—Beltz Home Service Co. has been named a top performer in Nexstar Network’s annual employee engagement survey. Employee engagement in the U.S. workforce declined between 2016 and 2017, while engagement at Nexstar Network member companies grew, according to a survey conducted by Aon Hewitt, using Modern Survey, for Nexstar.

Nearly 7,000 employees of plumbing heating, cooling, and electrical contractors across North America participated in Nexstar’s annual member survey in the spring of 2017.

“Beltz Home Service Co. is a true destination employer with higher levels of employee engagement than even nationally recognized companies outside our industry,” said Jack Tester, Nexstar president and CEO. “This survey confirms that employees of Beltz Home Service Co. feel respected, well compensated, and that they are a part of something that is growing and creating opportunities.”

Beltz was founded in 2001 in Findlay and is a veteran-owned family business.
