

## **HVAC Installer/Technician**

Beltz Home Service Co. - Findlay, OH

Do you see answers where others see questions? It's like Michelangelo said, "in every block of marble, I see a statue." He would then simply remove marble that didn't belong to reveal a work of art. He was a get-it-done guy. Are you? MacGyver was a get-it-done guy too. Faced with life-or-death situations, he always found a way to deliver. Sound like you?

We're looking for an HVAC installer who's equal parts Michelangelo and MacGyver. The fact that installs are often problems to be solved only makes this work more appealing to you. Seriously, wouldn't you be bored if this work was easy?

Truth is, this is hard work. Very hard work. In fact, you'll never work harder—or get more satisfaction. You'll get ample opportunities to flex your MacGyver get-it-done muscle while crafting HVAC installations worthy of your inner-Michelangelo.

We're Beltz Home Service Co. We believe in doing things right. The first time. We tell customers: everything we do is all about you—because it is. That's how we've built a 18 year track record of making a difference. For customers and our team members. Our approach is simple; be honest, humble and sincere. Do things the right way, the first time. We focus on helping our team members grow by investing in their technical skills, communication skills and life skills. That's why our team is full of get-it-done artists who enjoy making the world better one install and happy client at a time.

The qualifications needed to join our family of World Class HVAC Artistes:

- 2-3 Years of HVAC Install Experience
- EPA Certification
- Pass a Drug Test and Back Ground Check
- A Michelangelo/MacGyver outlook

Feel like you have what it takes? Call 419-421-0072
